EDUCATION

University of Waterloo

Sept. 2022 – May. 2027

Bachelor of Software Engineering, Honours, Co-op

EXPERIENCE

Software Developer

May. 2023 – Present

AimHome Realty Inc.

Toronto

- Led the development of a realtor app using **Javascript**, **Next.js**, **React.js**, and **CSS** to feature property listings via dynamic routing, reducing costs by **99.8%** through leveraging cloud services
- Integrated **Amazon Web Services (AWS)**, **S3 storage**, **Google Sheets RESTful API** and created algorithms using Javascript and **Node.js** to automate data retrieval and synchronization
- Deployed a direct contact form and created HTTP POST requests using the **Formik library** and Netlify, increasing customer engagement by **20%**

Junior Software Engineer

May. 2023 – Present

Tech Mahindra

Toronto

- Built an employee on/offboarding application using **C#**, **ASP.NET**, and **Swagger** to replace a PEGA based process, resulting in a **72%** reduction in operational costs
- Developed a custom RESTful API to streamline data integration between multiple platforms by creating HTTP POST and GET requests, using **SQL**, **Python**, **Postman**, and **Flask**
- Designed a role based algorithm, integrating **Google Sheets API** for data storage and increasing efficiency by **30%** through automated processes

PROJECTS

E-commerce Web Scraper | *Python, Selenium, Javascript, React.js, Next.js, Postman*

Jun. 2023

- Designed a **Python** Script using **BeautifulSoup** to parse and extract data from the HTML page source, covering **700+** products from the target website
- Leveraged **Selenium Webdriver** to simulate user interactions, enabling the script to handle dynamic content loading via JavaScript
- Employed random user-agents and crawl delay to prevent detection as a bot and comply with website policies

Spotify to Youtube Playlist Converter | *Flask, Python, React.js, Javascript, Next.js, CSS*

Apr. 2023

- Developed a full-stack application with a **Python** algorithm to integrate and fetch data from **Spotify's RESTful API** and **YouTube's Data API**, seamlessly converting **500+** songs from users' playlists
- Optimized server-side requests and responses using Axios in the frontend and a **custom Flask RESTful API** in the backend, handling CORS issues effectively and implmenting **OAuth 2.0** authentication protocol

Motorized Fish-Controlled Vehicle 🚗 | *Node.js, Javascript, OpenCV, Python, HTML*

Sept.– Dec. 2022

- Built an autonomous vehicle controlled by a live fish or joystick designed with **CAD** and using **OpenCV** and a **Raspberry Pi** to interact with a camera motion sensor alongside four other developers
- Developed an algorithm using **Node.js** to calculate vehicle direction and speed using coordinates
- Created a virtual joystick using **HTML** and **JavaScript** to control the vehicle by interacting with the backend

Personal Website 🌐 | *React.js, Next.js, Javascript, HTML, CSS, Figma*

Jan. 2023

- Established a portfolio website using **React.js**, **Next.js**, **HTML**, **CSS**, and **Javascript** to create a platform showcasing my projects and experiences
- Implemented the **Formik library** and **Fetch API** in creating HTTP POST requests to handle form submissions

AWARDS

York Region District School Board Top Scholar 🏆

Jul. 2022

- Gained the **second highest average (99.7%)** in a school board containing **42,000+ students**

TECHNICAL SKILLS

Languages: Java, C, HTML, CSS, C++, Javascript, Python, C#, SQL, Kotlin

Frameworks/Libraries: React.js, Next.js, Node.js, Flask, Selenium, Java Swing, PiCamera, WPILib, OpenCV, .NET

Developer Tools: Google Cloud Platform, Amazon Web Services, Git, Postman, Figma, Netlify, Linux
